### Experience

Carde Payment Solution · Remote · UI Designer ·

In the quest of bridging the tech gap in Africa and extending to other continents in the next 5 years, Carde Payment Solution has set up a development team that will work on their Website to create a wallet Webpp, I was contacted to do the UI for the project, which I haven't completed due to the fact that they would like to do some rebranding and also some UX research before we continue, on this team I worked with the frontend guys, who implements my designs React and Tailwind.

### Experience

Zing Mobile · Remote · UI designer ·

Talk Tech Project is a project built to eradicate tech ignorance among students, h=in the pasts ey've visited secondary schools to lecture students, but there was no adequate follow up, hence, they contact me to design UI for a social networking app with the name "Zing Mobile" where their students gets to network and also meet with mentors.

### Project

Blaze

A fictional company that sells shoes, Blaze. in my leisure time, i designed a hero section for this said company, with awesome animations that switch between different types of shoes. I designed the Logo and even the U and the Prototype using figma.
